Dependencies — PY_BALLISTICCALC

Upstream: https://github.com/o-murphy/py-ballisticcalc (MIT)

1. Anticloud Core Dependencies

Package	Version	License	Purpose
llama-cpp-python	>=0.2.0	MIT	PAX local inference
cryptography	>=41.0	Apache 2.0	AES-256 encryption
huggingface_hub	>=0.20	Apache 2.0	Model download
numpy	>=1.24	BSD	Numerical computation
requests	>=2.31	Apache 2.0	HTTP client

2. Upstream Dependencies

See upstream repository for full dependency list.
All upstream dependencies verified MIT or Apache 2.0.

3. Pinned Versions

requirements-anticloud.txt generated at build time with exact version pins.
No floating dependencies in production builds.
